Profile Summary

Full Stack Developer with 2+ years crafting fast, scalable web apps across the **MERN stack** and modern low-code platforms. Passionate about turning ideas into polished, user-focused products—from custom **e-commerce stores** to **AI-powered automation**.

Experience

2626 Creative Studio **Jun 2025 - Present**

Full Stack Developer *Sultanpur, Delhi*

- Collaborated with clients to build and deliver **10+ websites** using the **MERN stack** and low-code tools (**Shopify, Webflow, Wix Studio, WordPress, Framer, Figma**), **cutting turnaround time by 15%**.
- Delivered **Chao**, a luxury e-commerce platform (**35+ demographic**), and engineered **AI-powered automation and chatbot tools** for **Say with a Pin**, boosting conversion by **10%** and cutting manual effort by **15%**.

Eureka Geeks Tech Pvt Ltd **Aug 2023 - Sep 2024**

Full Stack Developer *Noida, India*

- Developed and deployed a dynamic web application using the MERN stack, **increasing user engagement by 13%** within the first three months.
- Implemented **RESTful APIs** that reduced data retrieval time by **40%**, improving the overall user experience.
- Designed authentication and authorization systems using Passport.js and JWT, communicating closely with the team to **reduce unauthorized access attempts by 20%**.
- Led optimization of **8+ back-end systems**, such as database queries and storage solutions, to boost responsiveness.

Projects

FirstJob (Job Portal) *March 2024*

React.js, Node.js, Express.js, MongoDB | Github | Live

- Developed the front-end using **React.js** to create a responsive and interactive user interface.
- Integrated **MongoDB** to store and manage user data, job listings, and application details.
- Built **RESTful APIs** with Express.js and Node.js and implemented **JWT and OAuth** authentication for secure login and registration.

Chao (Clothing Brand) *October 2025*

Shopify, Liquid.js, HTML, CSS, JS | Live

- Developed a **Shopify** e-commerce store for a luxury clothing brand using **Liquid.js, HTML, and CSS** for custom, responsive storefront design.
- Built a **co-ord builder** that lets users pair a top and bottom into a set, with a **discount applied automatically** on the paired items.
- Built a **quick-add feature** on product cards across the all-products page, letting users add items to cart without opening the product page, **increasing orders by 5%**.

Skills
